Av. de Francia, 4 - TOLEDO
& Youtube @COCEMFEnacional

ORGANISES

COCEMFE

ABOUT US

The Spanish Confederation of People with Physical and Organic Disabilities (COCEMFE) is a non-profit NGO founded in 1980. It is the most influential organisation for people with physical and organic disabilities, bringing together more than 1,600 organisations and representing more than 2.5 million people.

Our mission is to achieve the full inclusion of people with physical and organic disabilities through their active participation in all areas of society. In order to do this, we seek to advance and defend their ability to exercise their rights, while simultaneously coordinating and promoting their associative movement.

COCEMFE has a network of 80 employment services and placement agencies made up of a team of professionals who, by providing employment and improving employability, effectively promotes the inclusion of more than 20,000 people every year.
